The meeting was called to order by Chair. Richard Wolf at @2:45pm at the end of Upper Parish Road.

Engineer Conte showed maps and data related to the site to Mr. Hines and the group proceeded to walk the approximately 5 acres of initially flat, then slightly rising to a knoll containing rocks and trees and flat land, some of which had paths partly paved. A place for entrance, parking and loop road were estimated visually and discussion took place of how a cemetery might look on the site and what steps need be taken first to estimate feasibility.

The walk was completed in approximately 70 minutes.

Respectfully submitted,

Margaret Wirtenberg, Acting Sec'y
