Lachat Public Information Session

Lachat Farm is finally moving forward! The foundation of the house has been shored up, cleanup has begun around the house and the barn, and restoration of the pre-revolutionary house will begin very soon.

**Accordingly, a Master Plan Proposal will be presented at public information sessions. For your convenience two are scheduled:**

**Saturday, June 15<sup>th</sup> at 10:00 am at Town Hall in the Meeting Room**

**and**

**Tuesday evening, June 18<sup>th</sup> at 7:30pm at Town Hall also in the Meeting Room.**

The Master Plan is faithful to Leon Lachat's original vision of preserving a piece of Weston's agricultural history for the purpose of educational enrichment, as well as spiritual and physical refreshment for our community. Importantly, it was developed after gathering ideas from the community, researching other town farms and similar properties around the state, and meeting with experts in farming, historic restoration, and land use. We look forward to sharing this plan with you.

In the interest of time and preparation for the information session, we would like to hear your thoughts, comments, suggestions and questions in advance. Please consider sending your question/s to [lachatfarm@gmail.com](mailto:lachatfarm@gmail.com).

Many thanks and we look forward to seeing you,

The Town of Weston Select Committee for the Oversight of the Lachat Property
