

April 19

12-2PM

Join us at the Weston Public Library for our last Minecraft Meetup and Lego workshop of the school year!

We will have special Minecraft themed snacks and a raffle for LEGO themed prizes and Minecraft figures made on the Library's own 3D printer.

The first 20 children who attend will get to build their very own BrushBot! Learn about basic electronics and then put your BrushBot to the test in a BrushBot race!
