

New Commercial Single-Use Plastic Bag Ordinance

Adopted by the Weston Board of Selectmen on October 4, 2018

Town Clerk Serial Number: TM Vol 9, pg 653

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF SELECTMEN THAT: The Town of Weston Code of Ordinances is hereby amended to prohibit the commercial use of single-use plastic bags as follows:

ORDINANCE REGARDING RETAIL CHECKOUT BAGS

1. Purpose

The Town of Weston is committed to protecting the environment and the public health, safety, and welfare of its citizens. The goal of this ordinance is to reduce the common use of plastic checkout bags and to encourage the use of reusable bags by consumers, thereby reducing local land and marine pollution, advancing solid waste reduction, protecting the Town's unique natural beauty and irreplaceable natural resources, and improving the quality of life for the citizens of the Town.

2. Findings

2.1 Single-use plastic bags are an environmental nuisance; adversely affect public health; are a detriment to tourism; and impair the overall quality of life of the Town's residents and visitors.

- a. Because plastic bags are lightweight, they easily become airborne even when properly disposed of, littering beaches, roadsides and sidewalks. They clog storm drainage systems, contribute to marine and terrestrial pollution, and detract from the natural beauty of the Town for visitors and residents alike.
- b. Plastic bags photo-degrade, disintegrating into minute particles which adsorb toxins and pose a threat to riparian and marine environments, contaminating the food chain, water and soil. They are also a menace to marine life, killing birds, marine mammals, sea turtles and fish each year through ingestion and entanglement.
- c. The vast majority of plastic bags are not recycled, and recycling of plastic bags is not available in The Town of Weston. Their disposal adds to the Town's waste management expense, both through the cost of transporting waste to landfills and due to their contamination of the single-stream recycling system.

2.2 Single-use plastic bag ordinances have proven to be effective in reducing plastic bag consumption and litter and are part of a growing global movement towards sustainability.
