

Thursday Morning Book Club - Breakfast at Tiffany's by Truman Capote

Thursday, June 9th at 10:30 AM

"Breakfast at Tiffany's revolves around Holly Golightly, the former starlet and cafe society item, who floats lightly through life (like cotton fibers in the wind) looking for where she belongs. Ms. Golightly is and will remain one of the most original and intriguing characters in American fiction. Like a magician, she is both more and less than she seems. But she has an appreciation for people and animals that goes to the core of her soul that will touch you (if you are like me), especially in her desire that they and she be free." - Amazon
