

This is the Town of Weston Communications Center with an important weather advisory. The Department of Emergency Management and Homeland Security is predicting severe weather beginning Tuesday morning through Wednesday evening. The weight of this new snow, sleet and rain added to the tremendous weight of existing snow on many flat or shallow sloped roofs and decks, may pose a significant risk for roof and building collapses during the storm. For additional information, please see the Homeland Security Winter Storm Update at the Town of Weston web site at www.westonct.com.

In addition, the Public Works Department would like to remind residents that contractors plowing private driveways should not push snow onto public roads. Not only is this illegal, but it causes narrowing of roads, creating dangerous conditions.

This has been a Code Red message from the Town of Weston.
