Impressionism, Fashion and Modernity Exhibit

Present a revealing look at the role of fashion in the works of the Impressionists and their contemporaries. Some eighty major figure paintings, see in concert with period costumes, accessories, fashion plates, photographs, and popular prints, highlight the vital relationship between fashion and art during the pivotal years from the mid-1860's to the mid 1880's when Paris emerged as the style capital of the world

** Thank you to the Friends of the Weston Senior Activities Center for supplementing the cost of the coach bus so that we can offer this wonderful trip at an affordable price.
