

People of Weston,

As you may have noticed, the Weston Forum has combined with the Redding Pilot and the Easton Courier. To remain economically viable in this climate, a hard decision needed to be made.

While the front page of the paper may be jarring on any given week, this ultimately represents a positive change for the coverage of news in Weston.

Due to my new role as editor, the amount of Weston specific coverage will continue to increase over the coming weeks. My new role allows me to spend less time on day-to-day minutiae involved with the Forum and more time on the ground in Weston covering the stories that matter to you.

A new website, aspetuck.news will feature extensive Weston coverage.

Bear with us as we work out the kinks, we are still working out the best way to deliver content to the people in town. If you have any questions, comments or story ideas feel free to give me a call anytime at 203-442-1521 or email me at editor@aspetuck.news

Thank you for your patience,

Greg Menti, Weston editor
